ZESTAW SAMOCHODOWY

SEHR GEEHRTE DAMEN UND HERREN,

Die Wahl des richtigen Lagerungssystems ist das ausschlaggebende Element bei der Sicherstellung der zuverlässigen und einwandfreien Funktion des Fahrwerkes des Autos.

Die störungsfreie Arbeit des Fahrwerkes wird durch hohe Qualität und besonders genaue Fertigung der zur Anwendung kommenden Komponenten gewährleistet.

Die Reparatursätze ZINNGER enthalten alle für das Lagerungssystem auf der Radnabe notwendigen Komponenten; das sind u.a.:

- ein Satz Lager,
- eine Nabe der III. Generation,
- technische Abdichtungen, Dichtungen vom Typ O-Ring,
- ein Komplett Befestigungsmittel: Muttern, Schrauben, Unterlegscheiben, Stellringe, Splinte.

Das breite, 742 Referenzen enthaltende Angebot an Reparatursätzen ZINNGER ermöglicht die Wahl des geeigneten Reparatursatzes für die Mehrheit der Kraftwagenmarken und -modelle. Dennoch wird das Angebot ZINNGER in dem Maße der Entwicklung der Autoangebote der Kraftwagenhersteller ständig ausgeweitet.

Der neue Reparatursatzkatalog ZINNGER soll Ihnen das rasche Finden der notwendigen Komponente und das Gelangen an die vollständige Information über den jeweiligen Reparatursatz ermöglichen; die logische Gliederung des Katalogs wird Ihnen dabei behilflich sein.

Im I. Teil „Tabellen zur Wahl der Reparatursätze“ suchen Sie Kraftwagenmarke und -modell aus und finden den betreffenden Reparatursatz. Weitere Spalten, d.h. Motorart, Jahrgang und Radeinbaustelle (vorne oder hinten) dienen der präzisen Ortung des interessierenden Reparatursatzes.

Im II. Teil „Zusammensetzung der Reparatursätze“ können Sie erfahren, woraus der jeweilige Reparatursatz besteht; in der Tabelle sind die Anzahlen der einzelnen Komponenten des Reparatursatzes angegeben.

Der III. Teil „Kurzliste der Anwendungen“ enthält kurz gefasste Angaben über die Anwendungen der Reparatursatzreihen, nach Reparatursatzcode sortiert.

Der IV. Teil „Vergleiche“ richtet sich an Benutzer, die bisher Reparatursätze anderer Marken verwendet haben. In den Tabellen werden Reparatursatzcodes ZINNGER angegeben, die Reparatursätzen anderer Marken entsprechen. Im letzten, V. Teil „OE-Kodes“ werden OE-Kodes der Kraftwagenhersteller mitsamt den ihnen entsprechenden Reparatursatzcodes ZINNGER angegeben.

Wir hoffen, dass der Reparatursatzkatalog ZINNGER, den wir Ihnen nun zur Verfügung stellen, bei der Wahl des entsprechenden Reparatursatzes behilflich sein wird, der – wir sind davon fest überzeugt – Ihnen einen langen und störungsfreien Betrieb sicherstellt.

HAFTUNGSBESCHRÄNKUNGEN

Die Radlager sind in hohem Maße für die Sicherheit des Fahrzeuges verantwortlich, daher sind die sowohl von dem Hersteller gegebenen als auch in der Instandsetzungsanleitung enthaltenen Empfehlungen unbedingt zu befolgen.

Unsachgemäße Montage kann zu Beschädigungen des Fahrzeuges und auch zu Unfällen führen!

Wenn Sie keine Erfahrung in der Instandsetzung der Radlagerungen haben, beauftragen Sie eine spezialisierte Autowerkstatt damit.

Grundlage für die Reparatur der Lagerung ist die durch den Hersteller des Fahrzeuges herausgegebene Instandsetzungsanleitung.

A series of horizontal dotted lines spanning the width of the page, intended for taking notes.
